

ULTRA WASH PRO

EU Ecolabel:
BE/039/001

>> **EFFECTIVE AT 30°C**

>> **ULTRA-CONCENTRATED**

>> **OPTIMAL BIODEGRADABILITY**

FOR WASHING ALL YOUR FABRICS WITH PERFECT RESULTS GUARANTEED.

The GREEN'R range contains highly-effective, environmentally-friendly ingredients.

Satisfying EU ECOLABEL requirements means complying with strict specifications and tough performance and environmental criteria. GREEN'R ULTRA WASH PRO packaging is 100% recyclable. It's everyone's duty to protect the environment at all times.

Liquid biological detergent for all fabric types

USAGE:

GREEN'R ULTRA WASH PRO is a high performance liquid detergent. Ultra-concentrated, it enables washing of all types of laundry, even at low temperatures (30°C). Used in small doses, it is gentle on clothing fibres, restoring the original brightness of colours. Developed for optimised dosing even in very hard water. Its ocean flower fragrance leaves a fresh, pleasant and long-lasting scent on the laundry.

DIRECTIONS FOR USE:

- Wash at the minimum recommended temperature.
 - Do not exceed the maximum permitted load for the type of fabric concerned.
 - Follow the dosing instructions based on the hardness of the water and the level of soiling.
 - By using this EU Ecolabel product in accordance with the dosing recommendations, you help to reduce water pollution and energy consumption.
 - Product included in a multi-component system.
- Concentrated main detergent for use with an automatic dosing system, in a multi-product system composed of:
- GREEN'R ULTRA BOOSTER, alkaline booster
 - GREEN'R ULTRA PN, concentrated wetting agent and grease-remover
 - GREEN'R ULTRA ALBI, bleaching agent
 - GREEN'R ULTRA SOFT, scented softener

RECOMMENDED DOSAGE FOR 1 KG OF WASHING:

For best results without waste, determine the hardness of the water in your region, follow the instructions carefully and adhere to the following recommended dosages:

Water hardness			
Soft	8 g/kg	12 g/kg	15 g/kg
Medium	8 g/kg	12 g/kg	15 g/kg
Hard	8 g/kg	12 g/kg	15 g/kg
