## ULTRA ALBI

WWW.CHRISTEYNS.COM

EU Ecolabel:  
BE/039/001

### Active-oxygen-based bleaching agent

#### USAGE:

GREEN'R ULTRA ALBI is a stain-removal product for white and coloured wash loads. Effective at 30°C.

GREEN'R ULTRA ALBI has super powerful bleaching action at temperatures between 30 and 75°C. Suitable for heavily soiled items and delicate fabrics (wool, silk). There is no risk of damage to clothing with GREEN'R ULTRA ALBI and it preserves colour. Easy dosing, for all types of pumps.

#### DIRECTIONS FOR USE:

- Wash at the minimum recommended temperature.
- Do not exceed the maximum permitted load for the type of fabric concerned.
- Follow the dosing instructions based on the hardness of the water and the level of soiling.
- By using this EU Ecolabel product in accordance with the dosing recommendations, you help to reduce water pollution and energy consumption.
- Product included in a multi-component system.

Bleaching agent for use with an automatic dosing system, in a multi-product system composed of:

- GREEN'R ULTRA WASH<sup>PRO</sup>, concentrated detergent
- GREEN'R ULTRA BOOSTER, alkaline booster
- GREEN'R ULTRA PN, concentrated wetting agent and grease-remover
- GREEN'R ULTRA SOFT, scented softener

#### RECOMMENDED DOSAGE FOR 1 KG OF WASHING:

For best results without waste, determine the hardness of the water in your region, follow the instructions carefully and adhere to the following recommended dosages:

>> **EFFECTIVE AT 30°C**

>> **SUPERIOR STAIN-REMOVING POWER**

>> **COLOUR-PROTECTION**

**SUITABLE FOR ALL FABRICS WITH PERFECT RESULTS GUARANTEED.**

The GREEN'R range contains highly-effective, environmentally-friendly ingredients.

Satisfying EU ECOLABEL requirements means complying with strict specifications and tough performance and environmental criteria. GREEN'R ULTRA ALBI packaging is 100% recyclable. It's everyone's duty to protect the environment at all times.

| Water hardness |        |         |         |
|----------------|--------|---------|---------|
| Soft           | 5 g/kg | 10 g/kg | 15 g/kg |
| Medium         | 5 g/kg | 10 g/kg | 15 g/kg |
| Hard           | 8 g/kg | 10 g/kg | 15 g/kg |

|  |                                                                                                                                                                                                        |
